

Give AI to your teams, and stay in control of what it does to them.

ELYSÉA fits into the AI tool you deploy: manipulation and dependence blocked, emotion analysis locked in its layer, direction to human help in distress, a trace on every answer.

WHAT IS AT STAKE

- Since 2025-02-02, the AI Act has prohibited inferring emotions in the workplace.¹
- The works council (comité social et économique, CSE) is consulted on the introduction of new technologies; the CNIL recommends a list of permitted and prohibited uses.^{2,3}
- In the United States, generative AI has been excluded from general liability policies since 2026-01-01.^{4,5}

THE ANSWER

- **Four prohibitions** on every answer; an internal policy that a publisher cannot lower.
- **Emotions** locked in the layer; a voice analysis path remains on the deployed service, removed with voice in the upcoming version.
- **Distress**: direction to public numbers (3114 in France); **no individual tracking** of conversations; a **per-answer attestation** for the auditor and the insurer.
- Compared with governance platforms (Credo AI, Holistic AI): complementary; they document, ELYSÉA acts on every answer.^{6,7}

VERIFIABLE TODAY

- **On request**: our data protection impact assessment, a basis for yours; the architecture in review. **Public**: the comparator at elysea.app/comparateur (illustrative data, labelled). **With you**: the technical note for the CSE, to be written from this document.
- **What is missing**: results (published after the campaign), third-party validation, a signed data processing agreement; the upcoming version removes from the core several paths to services possibly outside the EU, other providers remain with an unproven region. Next proofs, in order: upcoming version deployed and verified, pilot, new sealing and publication of the protocol, campaign, results published and re-annotatable by an independent laboratory in a public benchmark still to be built, entity registered.

OFFER

- Teams, volume pricing: from €30 to €9.60 excl. VAT per seat per year depending on the total number of seats. Sales open once the entity is registered; a pilot without payment until then.

NEXT STEP

A 60-minute session with your data protection officer (DPO), your IT and your human resources, then a pilot with one team. Details: document *Companies*, two pages. contact@elysea.app · elysea.app
